If your dog passes our initial assessment and is accepted into our daycare program, there will be a 90 day probationary period where our daycare attendants will closely monitor your dog's behavior. During that period we will be closely communicating with you about their progress. If at any time the daycare staff deems your dog unfit for our daycare program due to aggressive or destructive tendencies we hold the right to terminate them from the program.

Bite Policy

This policy applies to all dogs participating in dog daycare. This policy is designed to create a safe and harmonious environment to all dogs participating in the daycare program and ensure the safety of all attendants.

Procedure:

If a dog inappropriately bites another dog, an attendant, or any other employee at 5 Star Doggy Day Care, in a dominant or aggressive manner and inflicts any type of injury to them, the attendant holds the right to terminate the dog from the program. Owner will be notified of the incident immediately. If terminated, the attendants and supervisor will discuss and reserve the right to deem the dog a "day lodger" where the dog is invited to come and go out individually with an attendant. Day lodgers go out for individual play sessions during the day.

Please be aware of the inherent risks of dogs interacting in any social play group setting. These risks could include but are not limited to:

- infectious diseases
- cuts and abrasions

Should your pet require veterinary care to address any medical issues from participating in this program, you will assume financial responsibility for your pet.

Spay and Neuter Policy

To ensure appropriate behavior and safety in daycare, all dogs must be spayed or neutered by 8 months of age. If a dog is exhibiting inappropriate behavior prior to be spayed or neutered while they are under 8 months of age, it will be determined on an individual basis if the dog is allowed to continue to partake in daycare. Any dog over 8 months of age that is not spayed or neutered may not attend our daycare program.
